MATH FACTS FUN: FUN WITH NUMBERS FOR ALL AGES AND ABILITIES!

Createspace, United States, 2011. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Yes, Math can be fun! I tell my students that all the time, but they often seem in doubt. We developed this game to help students practice their addition, subtraction, multiplication, and division skills in the form of a game. There are also several pages of Math Extras - including Skip Counting, a Hundreds Chart, Sieve of Eratosthenes, and Addition and Multiplication Tables. And now, in our second edition, we have added five international thinking games - from across the world and through the ages. The game pages are reproducible for use in a family or classroom situation.
