

Computer Procurement: Issues Concerning Technical Specifications for Navy's CAD/CAM Acquisition: Imtec-88-16br

Filesize: 2.63 MB

Reviews

This publication is definitely not simple to begin on studying but really exciting to read. It is actually rally fascinating throgh reading time. Your life span will be enhance when you complete looking at this publication.

(Laurence Littel)

COMPUTER PROCUREMENT: ISSUES CONCERNING TECHNICAL SPECIFICATIONS FOR NAVY S CAD/CAM ACQUISITION: IMTEC-88-16BR

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO examined the Navy s technical specifications for its Computer-Aided Design/Computer-Aided Manufacturing (CAD/CAM) equipment, focusing on issues the Navy should address before releasing its solicitation to industry. GAO found that the: (1) early CAD/CAM acquisitions were small and fragmented; (2) second-phase CAD/CAM acquisition is a large, joint system command initiative to buy commercially available, state-of-the-art technology; (3) Navy is reviewing the contract s estimated size, and projects that it may be smaller than the early estimates of \$1 to \$5 billion; and (4) Navy is unsure as to the future size, scope, and release of the CAD/CAM solicitation. GAO also found that the CAD/CAM technical specifications required: (1) graphics display screens compatible with all work stations; (2) computing devices to run the same application software; (3) modification of two public standards involving its Portable Operating System for Computer Environments (POSIX) and its Product Design Exchange Standard (PDES); and (4) integration of independent application software. In addition, GAO found that vendors who reviewed the specifications raised issues about: (1) the extent to which certain hardware features, which were more complex than those used commercially and possibly more expensive, were essential; (2) the possibility of producing a system unique to the Navy through modification of standards and integration requirements; and (3) whether requirements were negotiable or mandatory.
