Game of Thrones and Philosophy: Logic Cuts Deeper Than Swords

By William Irwin (Editor), Henry Jacoby (Editor)

BRILLIANCE AUDIO, United States, 2015. CD-Audio. Book Condition: New. Unabridged. 171 x 133 mm. Language: English . Brand New. Are honor and virtue necessary for happiness, or do they get in the way? Can wargs, direwolves, and other magical beings reveal truths about consciousness and our own reality? Does prophecy show that we are mere pawns of destiny, or are we free to live authentic lives? If ever a story was ripe for philosophical analysis, George R. R. Martin's A Song of Ice and Fire series is. In Westeros and beyond the Narrow Sea, Martin's fantasy world is filled with dozens of complex characters in conflict with themselves and others, facing self-doubt, moral hazard, deception, uncertainty, hubris, and social and political unrest. While the Seven Kingdoms have been plunged into war, beyond the Wall, the horrors of winter are coming. And far away, a young queen wrestles with her destiny as she journeys to reclaim her home. This insightful guide draws on the works of Machiavelli, Hobbes, Descartes, Augustine, Plato, Aristotle, and many other great philosophers to analyze key characters and plotlines while exploring themes of war, honor, knowledge, morality, gender politics, and more.

Reviews

A top quality ebook and the typeface used was interesting to learn. This can be for all who statte that there had not been a well worth reading through. I am just pleased to tell you that this is basically the very best ebook i actually have go through in my individual life and can be he finest book for at any time.

-- **Mr. Carol Bergnaum IV**

This publication will not be straightforward to begin on studying but quite fun to see. It really is basic but shocks in the fifty percent of the ebook. I realized this ebook from my dad and i advised this pdf to learn.
