Reviews

This publication is worth getting. it was writtern really flawlessly and valuable. Its been designed in an exceedingly easy way and is particularly only right after i finished reading this ebook through which in fact altered me, affect the way i believe.

(Lester Ebert)

MERE CREATION: SCIENCE, FAITH AND INTELLIGENT DESIGN

IVP Academic. Paperback. Book Condition: New. Paperback. 475 pages. Dimensions: 9.0in. x 6.0in. x 1.3in. For over a century, the scientific establishment has ignored challenges to the theory of evolution. But in the last decade such complacency about its scientific and philosophical foundations has been shaken. As cracks in the Darwinian edifice have begun to appear, many are asking whether a defensible alternative exists. In response to this growing crisis, a movement has emerged among scholars exploring the possibility of intelligent design as an explanatory theory in scientific descriptions of the universe. As Michael Behe has proposed in his landmark *Darwin's Black Box*, at the cellular level there appears to be a high level of irreducible complexity that suggests design. In this book Behe is joined by eighteen other expert academics trained in mathematics, mechanical engineering, philosophy, physical anthropology, physics, astrophysics, biology, ecology and evolutionary biology to investigate the prospects for this emerging school of thought. Challenging the reigning ideology of materialistic naturalism on both scientific and philosophical grounds, these scholars press the case for a radical rethink of established evolutionary assumptions. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
