Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Any part of the world can be viewed and modelled in terms of its chosen qualitative and/or quantitative properties, OR its structure. The former approach has been used by nearly the whole of human intellectual endeavor, i.e. conventional science of physics, the arts etc. Development of the latter or the systemic view is the subject matter of the current work. The Purpose of Change is Problem Solving suggests that the structural view is empirical, pervasive throughout experience and as such results in a single domain as opposed to conventional science which consists of many domains like mechanics, electricity etc. Thus, a unique approach is required which is based on general principles of systems translated into operational form by the symbolism of processed natural language called linguistic modelling of scenarios which can carry mathematics and uncertainties. To model scenarios with complex structure, a description or story in natural language is expressed in terms of homogenous language of one - and two - place sentences, the elementary constituents of which complex structures can be constructed [like a variety of...

### Reviews

*Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*
